

XENO PORTFOLIO

Welcome to Xeno Portfolio

THE WORLD'S FIRST FOREX, CFD
AND CRYPTOCURRENCY
MUTUAL INDEX FUND!

We are going through a major turning point within the economic system and society that will change the way we all do investments. Conventional ideology and funding models will not be able to capture the opportunities that arise from this paradigm shift. My vision as a founder is to take Xeno Portfolio to the next level and to try this I have laid out our plan to amplify our knowledge in all kinds of markets.

Our strategy is not about just extending our products and services, we aim to provide customized services and solutions for each client. That is the core thinking behind our mutual index fund strategy.

With Love,

Yuri Korovin

Strategies We Are TRADING

XPO provides a way to track the performance of the forex, CFD & crypto markets as a whole by holding a single index asset. Index funds have consistently beaten the average managed fund since its inception.

There are literally thousands of trading scripts for investors to choose from. Choice paralysis: choice adds cost, complexity and the need for advice. XPO eliminates this complexity for all kinds of investors.
